Portfolio

Professional Summary

Computer Science and Engineering undergraduate with a strong foundation in programming, data structures and algorithms, object-oriented programming, and database systems. Experienced in developing software applications and machine learning projects using Java, Python, SQL, and Streamlit. Interested in software engineering, backend development, and practical AI-driven solutions.

Education

Gokaraju Rangaraju College of Engineering — *2024 – 2028*
B.Tech in Computer Science and Engineering — CGPA: 8.95/10

Prathibha Junior College — *2024*
Telangana State Board of Intermediate Education — Percentage: 98.1%

Vignan English Medium School — *2022*
Board of Secondary Education, Andhra Pradesh — Percentage: 95.17%

Personal Projects

Customer AI – Real-Time Customer Segmentation & Business Intelligence System — *2026*
Python, Streamlit, Pandas, NumPy, Scikit-learn, PCA, K-Means, BIRCH — GitHub | Live Demo

- Developed an interactive customer intelligence application using Python, Streamlit, Pandas, NumPy, and Scikitlearn on the UCI Wholesale Customers dataset.
- Built an end-to-end machine learning pipeline using log transformation, StandardScaler, PCA, and K-Means, retaining 92.07% of variance with three principal components.
- Implemented and evaluated K-Means and BIRCH clustering using silhouette scores and other clustering evaluation metrics for customer segmentation.
- Developed business intelligence features including real-time customer segmentation, segment explanations, similar-customer comparisons, What-If simulations, savings insights, CSV uploads, interactive visualizations, and downloadable PDF reports.

Technical Skills and Interests

Languages: Java, Python, C, JavaScript, SQL
Core CS: DSA, OOP, DBMS, OS, Computer Networks
Frameworks & Data: Streamlit, Pandas, NumPy, Scikit-learn, PCA, K-Means, BIRCH
Tools & Databases: PostgreSQL, Git, GitHub, Postman, Swagger, VS Code, Plotly

Achievements

- Secured 3rd place in a college-level hackathon by developing an AI-powered anomaly detection and explanation system using RAG and locally hosted LLMs.
- Solved 180+ problems on LeetCode, demonstrating consistent practice in Data Structures and Algorithms.

Certifications

Generative AI, Deep Learning & Language Models – *EduSkills Academy* — *2026*
Generative AI Foundations – *AWS Academy* — *2026*
Machine Learning Foundations – *AWS Academy* — *2026*
Machine Learning for Natural Language Processing – *AWS Academy* — *2026*
Database Programming with SQL – *Oracle Academy* — *2026*

Positions of Responsibility

- Led and coordinated a three-member team in the development and successful completion of a second-year academic project.
