PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience developing full-stack applications and AI/ML projects. Skilled in Java, Python, JavaScript, Spring Boot, and PostgreSQL, with a strong foundation in software development, problem-solving, and building practical technology solutions.

EDUCATION

Gokaraju Rangaraju College of Engineering <i>B.Tech in Computer Science and Engineering</i>	2024 – 2028 CGPA: 8.95/10
Prathibha Junior College <i>Telangana State Board of Intermediate Education</i>	2024 Percentage: 98.1%
Vignan English Medium School <i>Board of Secondary Education, Andhra Pradesh</i>	2022 Percentage: 95.17%

PERSONAL PROJECTS

CineJunction – Movie Discovery & Recommendation Platform <i>Full-stack movie discovery and recommendation platform</i>	2026 GitHub
– Developed a full-stack movie platform using Java, Spring Boot, PostgreSQL, HTML, CSS, JavaScript, JWT, and the TMDb API. – Implemented secure authentication, advanced search, dynamic movie details, ratings, reviews, and TMDb-powered movie data integration. – Built a recommendation engine using genre, keyword, collection, director, cast, and other movie metadata to generate personalized discovery results.	
Customer AI – Real-Time Customer Segmentation & Business Intelligence System <i>Python, Streamlit, Pandas, NumPy, Scikit-learn, PCA, K-Means, BIRCH</i>	2026 GitHub
– Developed an interactive customer intelligence application using Python, Streamlit, Pandas, NumPy, and Scikit-learn on the UCI Wholesale Customers dataset. – Built an end-to-end ML pipeline using log transformation, StandardScaler, PCA, and K-Means, retaining 92.07% variance with four principal components. – Implemented and evaluated K-Means and BIRCH from scratch and using Scikit-learn, comparing clustering performance using silhouette scores. – Enabled real-time segmentation of new customers with segment explanations, similar-customer comparisons, What-If simulation, and segment-based savings insights. – Developed a business dashboard supporting customer segmentation, CSV uploads, interactive visualizations, classified-data export, and downloadable PDF reports.	

TECHNICAL SKILLS AND INTERESTS

Languages: Java, Python, C, JavaScript, SQL
ML/Data: Pandas, NumPy, Scikit-learn, PCA, K-Means, BIRCH
Developer Tools: Git, GitHub, Postman, Swagger, VS Code
Frameworks: Spring Boot, Spring Security, Streamlit
Databases: PostgreSQL
Visualization: Plotly
Soft Skills: Problem Solving, Communication, Teamwork, Adaptability
Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming
Areas of Interest: Backend Development, Software Development, Data Structures and Algorithms, Generative AI

ACHIEVEMENTS

- Secured 3rd place in a college-level hackathon by developing an AI-powered anomaly detection and explanation system using RAG and locally hosted LLMs.
- Solved 180+ problems on LeetCode, demonstrating consistent practice in Data Structures and Algorithms.

CERTIFICATIONS

Generative AI, Deep Learning & Language Models <i>EduSkills Academy</i>	<i>2026</i>
AWS Academy Graduate – Generative AI Foundations <i>AWS Academy</i>	<i>2026</i>
AWS Academy Graduate – Machine Learning Foundations <i>AWS Academy</i>	<i>2026</i>
AWS Academy Graduate – Machine Learning for Natural Language Processing <i>AWS Academy</i>	<i>2026</i>
Database Programming with SQL <i>Oracle Academy</i>	<i>2026</i>

POSITIONS OF RESPONSIBILITY

- Led and coordinated a three-member team in the development and successful completion of a second-year academic project.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
